IOTA, TAU, PI

by CLÉMENT CAUVET

DESIGNER CLÉMENT CAUVET

CLÉMENT CAUVET is an unclassifiable designer. He generally works on unique pieces. When he talks about his lights, Clément says: "Like a child playing with "lego" in his room, I tried to translate a world, with concrete, metal. I see these three lights as a bridge between past and future."

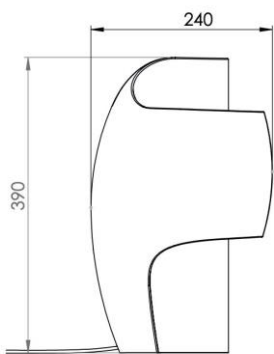

Materials

Concreted, Brass-plated steel

LA LAMPE B

by THIERRY DREYFUS

DESIGNER
THIERRY DREYFUS

THIERRY DREYFUS seizes on beauty to protect himself from the brutality of the world. Deus ex-machina of modern lighting, he is famous for his light installations, like a protean talent of the plastic scene, claimed by Comme des Garçons, Raf Simons, Rhude, Peter Marino.

Materials

Gypsum, Anodised aluminium

DESIGNER
PHILIPPE NIGRO

PHILIPPE NIGRO is a designer of objects, furniture, lamps, spaces and scenography. He lives between Milan and Paris, collaborating with international artisans and publishers, on both small and large scale.

My creations represent objects that are above all functional, but also mysterious, they generate questions. Sometimes with a touch of irony.

Like a powder case or a precious box, the mechanical action of opening or closing makes the object reassuring and immediately understandable.

Initially designed for the bathroom, POU德里ER can also be used in a corridor or an entrance.
