International lighting design

Since 1995, LIGHT-POINT has been producing innovative lighting products based on a long tradition for superior quality and craftsmanship.

Over the past 26 years, LIGHT-POINT has brought to market an extensive product collection in an ultra-modern and distinctly Danish design style, a language that continues to unfold today.

The company challenges the perception of what good lighting design can do.

LIGHT-POINT's products express a consistent approach: the quest for the ideal balance of perfect form, the latest in LED technology and something that is both aesthetically timeless and minimal design.

Every design LIGHT-POINT produces, whether it is light for a bathroom, table lamps, pendants for a living room or built-in ceiling and wall lights, has a unique emotive experience.

LIGHT-POINT's extensive product range is suitable for both commercial and residential markets, and the company works closely with architects and designers to find the perfect solution to suit the needs of all of their customers.

Today LIGHT-POINT products are available in over 50 different countries from Scandinavia to China.

**Introducing
LIGHT-POINT SMART TUNE**

powered by Casambi

Light isn't just light. No one knows that better than LIGHT-POINT. That is why we constantly do our utmost to design even better solutions. LIGHT-POINT isn't just about beautiful design. It's also about smart lighting and, above all, intelligent solutions.

Our latest collections, AURA, EDGE, and ORBIT, have made it even easier to create the perfect atmosphere and lighting – no matter where you are. We have future-proofed our most popular collections by integrating CASAMBI – an intelligent standard for lighting control that provides the unique option of playing with light.

We call it *LIGHT-POINT SMART TUNE powered by Casambi*. All these lamps have in common is that you can operate them with ease and simplicity using your smartphone. It's pretty straightforward. On the screen, tap the luminaire you want to turn on and off, swipe to the side to adjust the brightness, and swipe up or down to adjust the hue of the light from cold to warm – or vice versa – as required.

In 2021 EDGE and ORBIT collection won the prestigious iF Design Award 2021.

LIGHT-POINT is committed to ensuring you with the highest quality standards in luminaire manufacturing. It's just one of the great benefits that gives you greater value for longer.

Here's to at least 7 years peace of mind...

A large, bold, black number '7' is centered on the page. Overlaid on the '7' is the text 'YEARS' and 'WARRANTY' in a light gray, sans-serif font. 'YEARS' is positioned above 'WARRANTY', and both are centered horizontally relative to the '7'.

New Colour /

Brass /

Deep
Reflective Tone /

Brushed Surface /

Brass is the latest addition to our colour palette. A deep and reflective tone that adds a softer depth to the ultramodern design language in our collection. This classic colour gives the range of products a subtle touch of timelessness whilst retaining the contemporary and clean aesthetic. The texture of brushed aluminium provides an understated luxury that will fit into any interior.

Products

AURA

AURA S1 / Rose Gold
Design: Nital Patel

AURA SPOT is the newest line extension to the award-winning AURA series.

The lamps have two or three flexible spots rotating around its own axis providing a glare-free light in any desired direction.

Its design is based on the distinctive design style of LIGHT-POINT, combining clean lines with technical precision.

With clean-cut lines, made of aluminium COMPACT is beautiful as well as functional.

Meeting the IP54 standard, the lamp is approved for outdoor use, but can, of course, also be used indoors.

Titanium is the latest colour update to the COMPACT collection. The gently brushed and reflective surfaces continues to refine the aesthetic of the timeless design.

51

COSMO is a truly flexible spot, rotating around its own axis. The lamp works optically spreading the light further, lighter and softer. The optic glass provides a glare free light, eliminating annoyance to the eyes.

The spot can rotate 350 degrees, providing maximum light versatility to a typical fixed spot.

COSMO has the recognisable cross-knurled pattern that is machined into solid aluminium, giving it a contemporary, yet elegant aesthetic at the same time. The diamond facets in the knurling texture have been softened to enrich the depth of the colours.

DARK is simply pure form, pure function!

The idea was to design a lamp as simple and elegant as possible whilst delivering the most superior quality work light. DARK is the result of nearly two years of design and technical development and is quintessentially an example of the maxim "form follows function".

"DARK is all about the details that have been seamlessly worked into the function of the lamp. It's all aluminium construction provides lightness, making it an easy-to-use everyday task light", says Head of Design, Nital Patel.

DARK

73

DARK / Touch sensor to operate light intensity
Design: Nital Patel

DARK WALL / Brass
Design: Nital Patel

DARK T2 / Brass
Design: Nital Patel

DARK works optically, spreading light further, wider and softer. The optics also provides glare free light, eliminating annoyance to the eyes, making it a comfortable work light.

EDGE

90

Award-winning pendants

EDGE ROUND / Titanium
EDGE LINEAR / Titanium
Design: Nital Patel

We are very honored to receive this recognition for our work. It is something we always hope happens when designing products – and then with a product we are incredibly proud of.

— Head of Design, Nital Patel

EDGE collection
iF Award Winner 2021
Design: Nital Patel

EDGE results from our desire to design a premium collection of pendants that embodies the architectural international design style. The goal was a lamp that could distribute perfect light while looking both beautiful and sculptural.

The collection has several features, elegantly underscored by its conical shape. So, the widest side is designed to provide excellent, functional light, whereas the narrower side provides more ambient lighting.

EDGE's iconic shape lends a lovely aesthetic touch to any ceiling or wall, making an interior more cutting edge.

The collection features both circular and linear lamps all made of top-quality aluminium, and available in Rose Gold and our latest Titanium.

In 2021, the EDGE collection won the prestigious *iF Design Award 2021*.

EDGE LINEAR

Design: Nital Patel

Pendant height up to 3 m.
*Anodized surfaces may vary ±10%.

- Dimmable with
- Integrated LIGHT-POINT SMART TUNE Powered by Casambi
 - Integrated touchless sensor
 - External Casambi compatible switches

This product cannot be controlled by external trailing-edge dimmer.

The OPTIC collection embodies credo *Form Follows Function*. Enjoy the sleek shape and superb performance of these elegant spot lights and pendants.

The optic glass provides a glare-free light and provides maximum light where needed.

Each faceted spot on OPTIC LINEAR is seamlessly sculpted into the linear profile adding an aesthetic dimension. The surprise is the consistent spread of light on the surface as opposed to circles of light that would generally be expected from spot fixtures.

OPTIC OUT / Titanium

Design: Nital Patel

RAW is an attitude of refined simplicity and technical precision that has become synonymous of LIGHT-POINT's design style. The RAW spot lamps feature the brands newest signature, cross-knurled pattern that is machined into solid aluminium, giving it a contemporary, yet elegant aesthetic at the same time. The diamond facets in the knurling textured have been softened to enrich the depth of the anodised colours.

Create dynamic movements or calm uniformity by combining different sizes and colours of the SOHO collection.

There are no creative limits with the award-winning SOHO lamp. SOHO is a wall-mounted LED lighting system, based on recessed round tiles that can be placed creatively on the wall in every imaginable pattern.

The collection is a perfect mood setter, allowing you to freely create visual presence in the design of a room.

With aesthetically backlit surfaces, the SOHO lighting system achieves a fascinating overall appearance and offers a high degree of flexibility.

— Reddot Award Jury

SOHO collection
Reddot Winner 2020
Design: Ronni Gol

SOHO is a wall-mounted LED lighting system, based on recessed round tiles that can be placed creatively on the wall in every imaginable pattern. The collection is a perfect mood setter, allowing you to freely create visual presence in the design of a room.

Originally designed in 2015, the newest collection in brushed anodised rose gold finish are the newest relaunch of decorative lamp collection.

SOHO is ideal for multipurpose rooms in residential homes as well as in shops, studios, showrooms, offices and hotel lobbies.

SOHO consists of 5 different sizes, each recessed slightly further away from the wall, allowing for overlapping patterns. Based on individual design, SOHO enables for unlimited number of tiles in one set-up.

The collection is available in a range of colours to choose from. The pallet includes black, white and gold in a structured powder coated finish, and a newly released rose gold and titanium in brushed finish. Each lamp is made from CNC machined high quality aluminium, which has been the best choice of material for absorbing heat created by the LED's.

SURFACE can be used as a traditional ceiling pendant with the aid of a suspension kit.

This allows the lamp to be suspended up to two metres down from the ceiling, and consequently makes rooms with high ceilings seem more welcoming.

It can even be fitted vertically to a wall as an elegant, glowing circle. This is ideal in large walk-through areas, for example. This way, the light source becomes part of the décor.

The VANTAGE spotlights impress with their high lighting comfort and blend in discreetly with different interiors.

— Reddot Award Jury

VANTAGE collection
Reddot Winner 2020
Design: Nital Patel

VANTAGE is a state-of-the-art LED spot lamp that works optically, spreading light further, wider and softer. Replacing traditional reflectors with an optic glass provides glare free light, eliminating annoyance to the eyes.

The collection is made up of four sizes and five colours; in a structured powder coated black and white and in a brushed rose gold, titanium and our new colour brass.

Each lamp is made from CNC machined high quality aluminium which has been the best choice of material for absorbing heat created by the LED.

The conical shape adds an aesthetic dimension to any ceiling or wall. The spot can be pivoted at 90 degrees to the mounting point and rotated almost 360 degrees, providing maximum light versatility to a typical fixed spot lamp.

We provide 7 years warranty for all LIGHT-POINT luminaires
(This excludes batteries)

General terms of sale and delivery

The following terms and conditions cover all deliveries and services from LIGHT-POINT A/S, unless other terms have been agreed upon in writing.

Tender

A tender is binding for three weeks from the date of the tender.

Dispatch/return of goods

Delivery will be EXW LIGHT-POINT A/S' warehouse (Incoterms 2000) unless other terms have been explicitly agreed upon. When buying any of LIGHT-POINT A/S' goods for resale buyer shall defray all freight charges himself.

Dispatch will take place at buyers' own account and risk. When delivery has been agreed to be free of carriage the cost of dispatch is included in the price and the dispatch will be at the risk of LIGHT-POINT A/S. Buyer is only entitled to annul the order due to delay provided delivery is delayed for more than 30 days. Returned goods will only be received when prior agreement of return has been reached and then only in the original wrapping and in an undamaged state. A copy of the delivery note or the invoice must accompany the returned goods.

Erroneous orders for standard goods will be deducted 20% for handling and control. Special goods, procured goods and unwrapped light sources will not be accepted for return.

Prices

All prices are current prices exclusive VAT, government taxes and light sources unless otherwise stated. All prices are stated without prejudice to printing errors, price changes and discontinued goods.

Payment

Unless otherwise stated in LIGHT-POINT A/S' tender or other written agreement our terms of payment are net cash at delivery/collection. At delay in payment a fee of DKK 100.00 and interest of 2% per commencing month will be added.

Notification of defects

Buyer is obligated to examine the goods immediately after receiving them. Notification of defects must be given to LIGHT-

POINT A/S within 8 days of delivery. If buyer does not notify LIGHT-POINT A/S of defects within this time-limit he will not be able to cite any defects at a later date. Expenses incurred by buyer in connection with cited defects are not covered by LIGHT-POINT A/S unless LIGHT-POINT A/S has received the notification of defects and has given a written acceptance to cover the costs.

Warranty

Products which have a manufacturing fault or a flaw in the material will be repaired without cost or exchanged in accordance with the rules in the Danish Sale of Goods Act and to the same extent that the warranty from sub-suppliers covers. Light sources are not covered by warranty.

Exemption of liability

Non-fulfilment including delay or delivery of defective goods will only justify buyer compensation provided buyer documents that the non-fulfilment is caused by gross negligence on the part of LIGHT-POINT A/S. However LIGHT-POINT A/S is in no case responsible for operating loss, loss of time, loss of profits or other like indirect losses including daily fines inflicted on buyer.

Product liability

The company is only responsible for product liability in accordance to the rules in the Danish Product Liability Act. Beyond this the company is not responsible for product liability.

Disputes

Disagreements in connection with the cooperation of the parties with reference to this agreement must be solved according to Danish law, in as much as the parties agree that the venue shall be the Maritime and Commercial High Court in Copenhagen or alternatively the City Court of Copenhagen.

Copenhagen K, 1st of September 2022.
