We're delighted to showcase our passion for creating unique light sculptures that radiate elegance and sophisticated personality. Terzani's collection allows architectural and decorative professionals to reimagine spaces and make the world a brighter place. In a Terzani design, one can feel the enchantment created by its illumination of a surrounding space. Beyond practical and utilitarian, our designs represent a modern, artistic beauty fused with innovative technology and meticulous attention to detail.

Details

Argent, a precious *cloud.*

With this new suspension light, designer Dodo Arslan creates a shimmering cloud. Argent consists of metal discs that have been meticulously shaped by hand by Terzani craftsmen into clusters. Once lit, the multiple, angled surfaces of the discs emanate a soft, shimmering glow. Argent is available in stainless steel, gold plated, black nickel, rose gold and champagne finish. Design Dodo Arslan.

Mizu, flowing *light.*

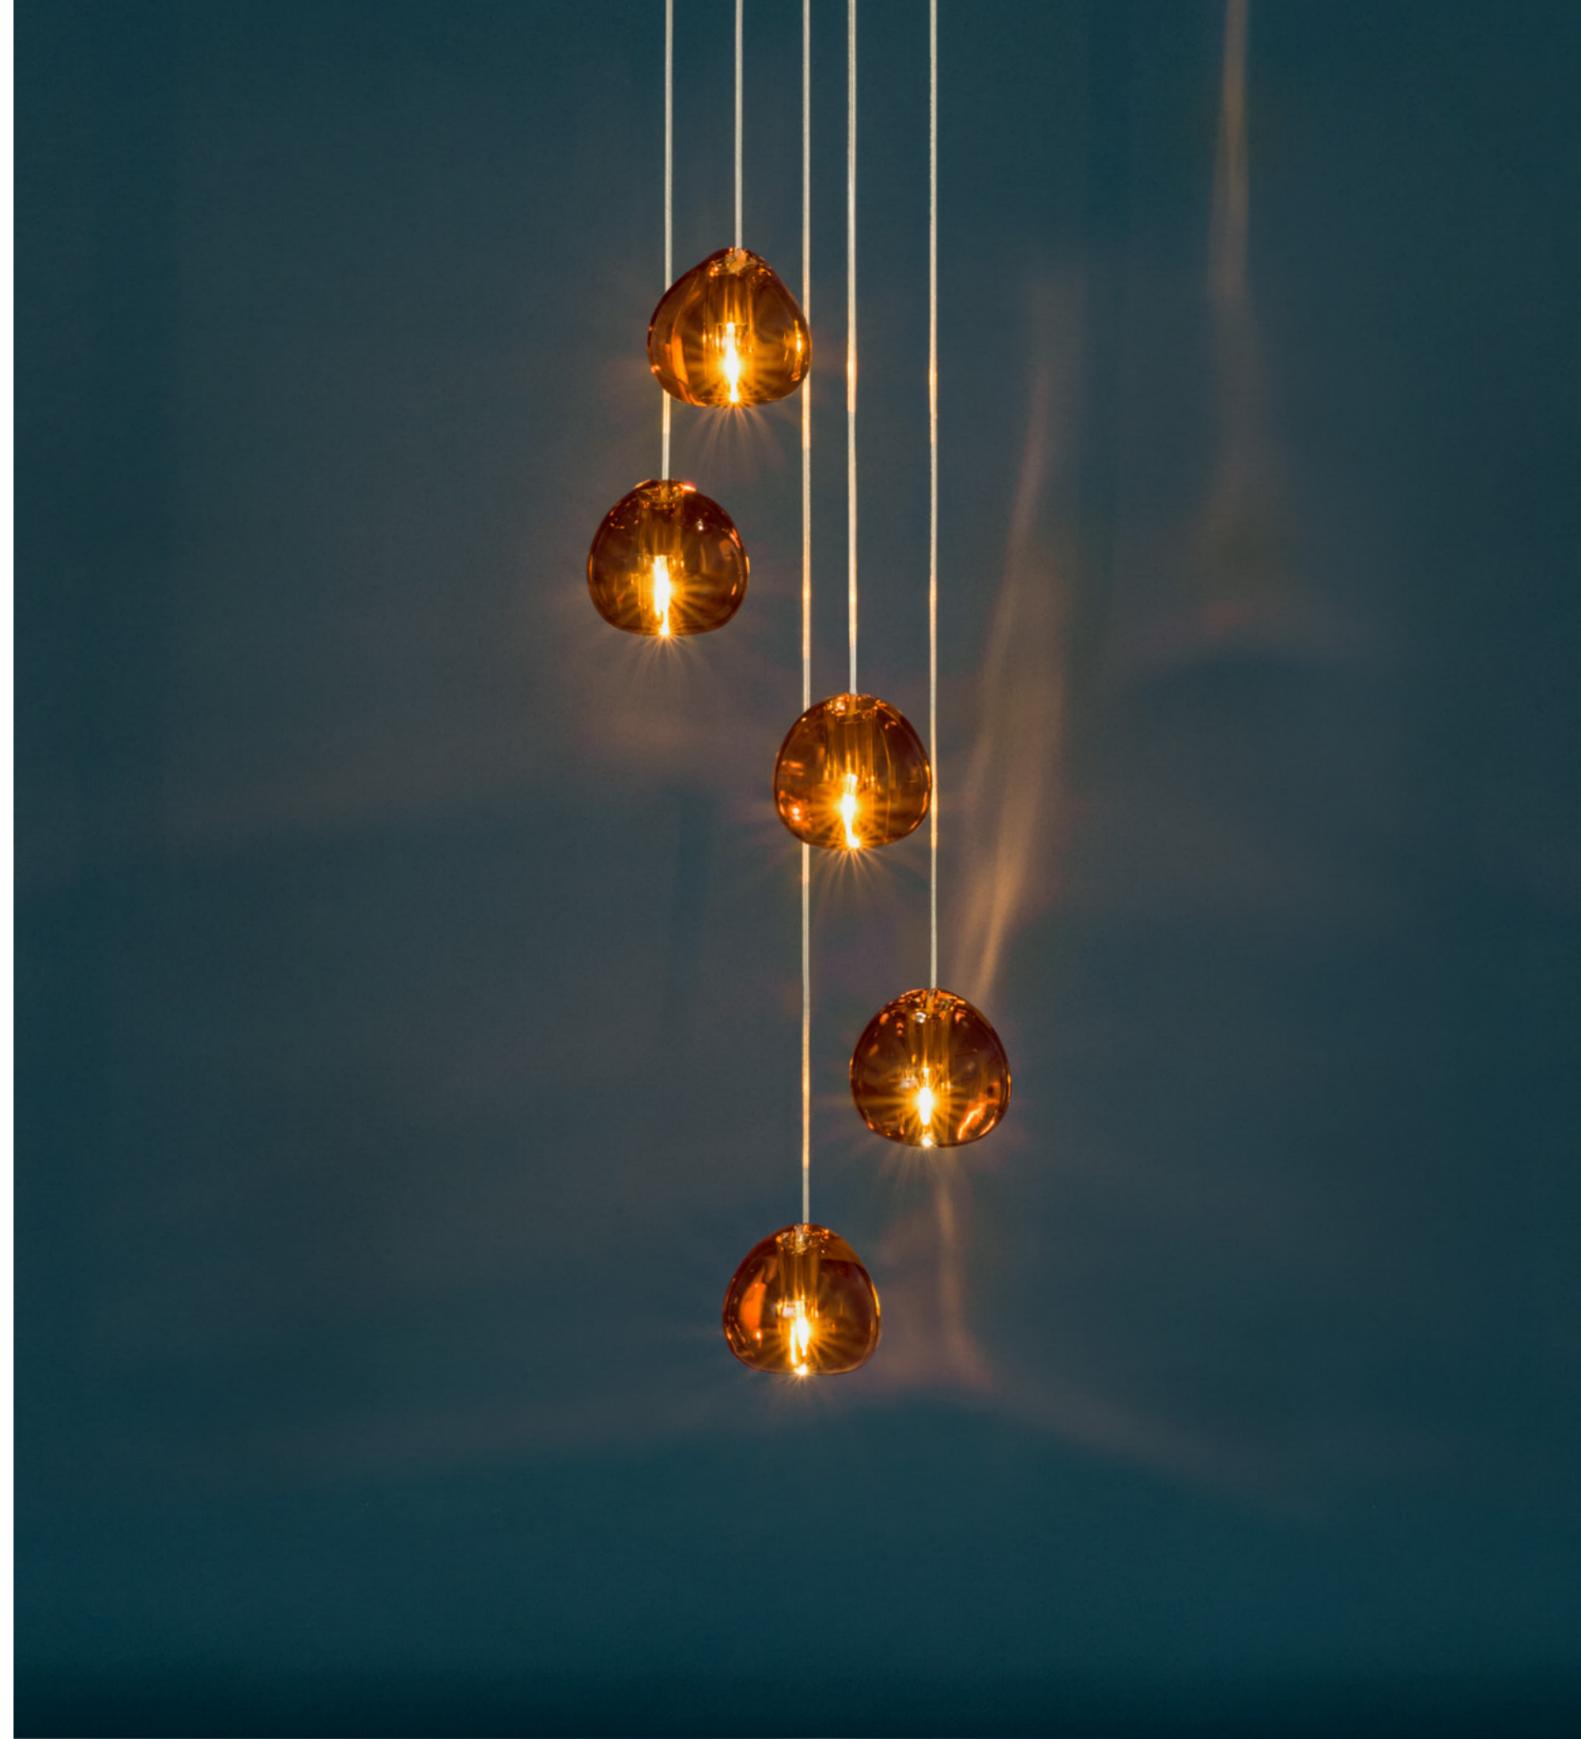

Inspired by the tranquil and mesmerizing light refractions created by water, Mizu is a customizable pendant light from Terzani. Like water droplets, no two Mizu are alike, each crystal shape is unique and made meticulously by hand. Using only the clearest crystal, Mizu perfectly emulates water's refraction of light, casting amazing patterns around the room, reminiscent of flowing water. Available in clear, silver dust, gold, cognac and champagne finish. Design Nicolas Terzani.

Atlantis, a precious *wave.*

Seemingly alive, Atlantis' shimmering light creates a vibrant source of energy. Its mesmerizing, organic effect is created by hundreds of illuminated lengths of draped, nickel chain. Like water in the ocean, Atlantis' chains appear liquid, cascading over its gloss nickel bands and falling down towards the abyss before turning back into itself. Atlantis is composed of almost three miles of chain, meticulously hand-crafted by master italian artisans. Atlantis is available in nickel, black nickel, bronze, gold and champagne finish. Design Barlas Baylar.

Abacus, multiplying *luminescence.*

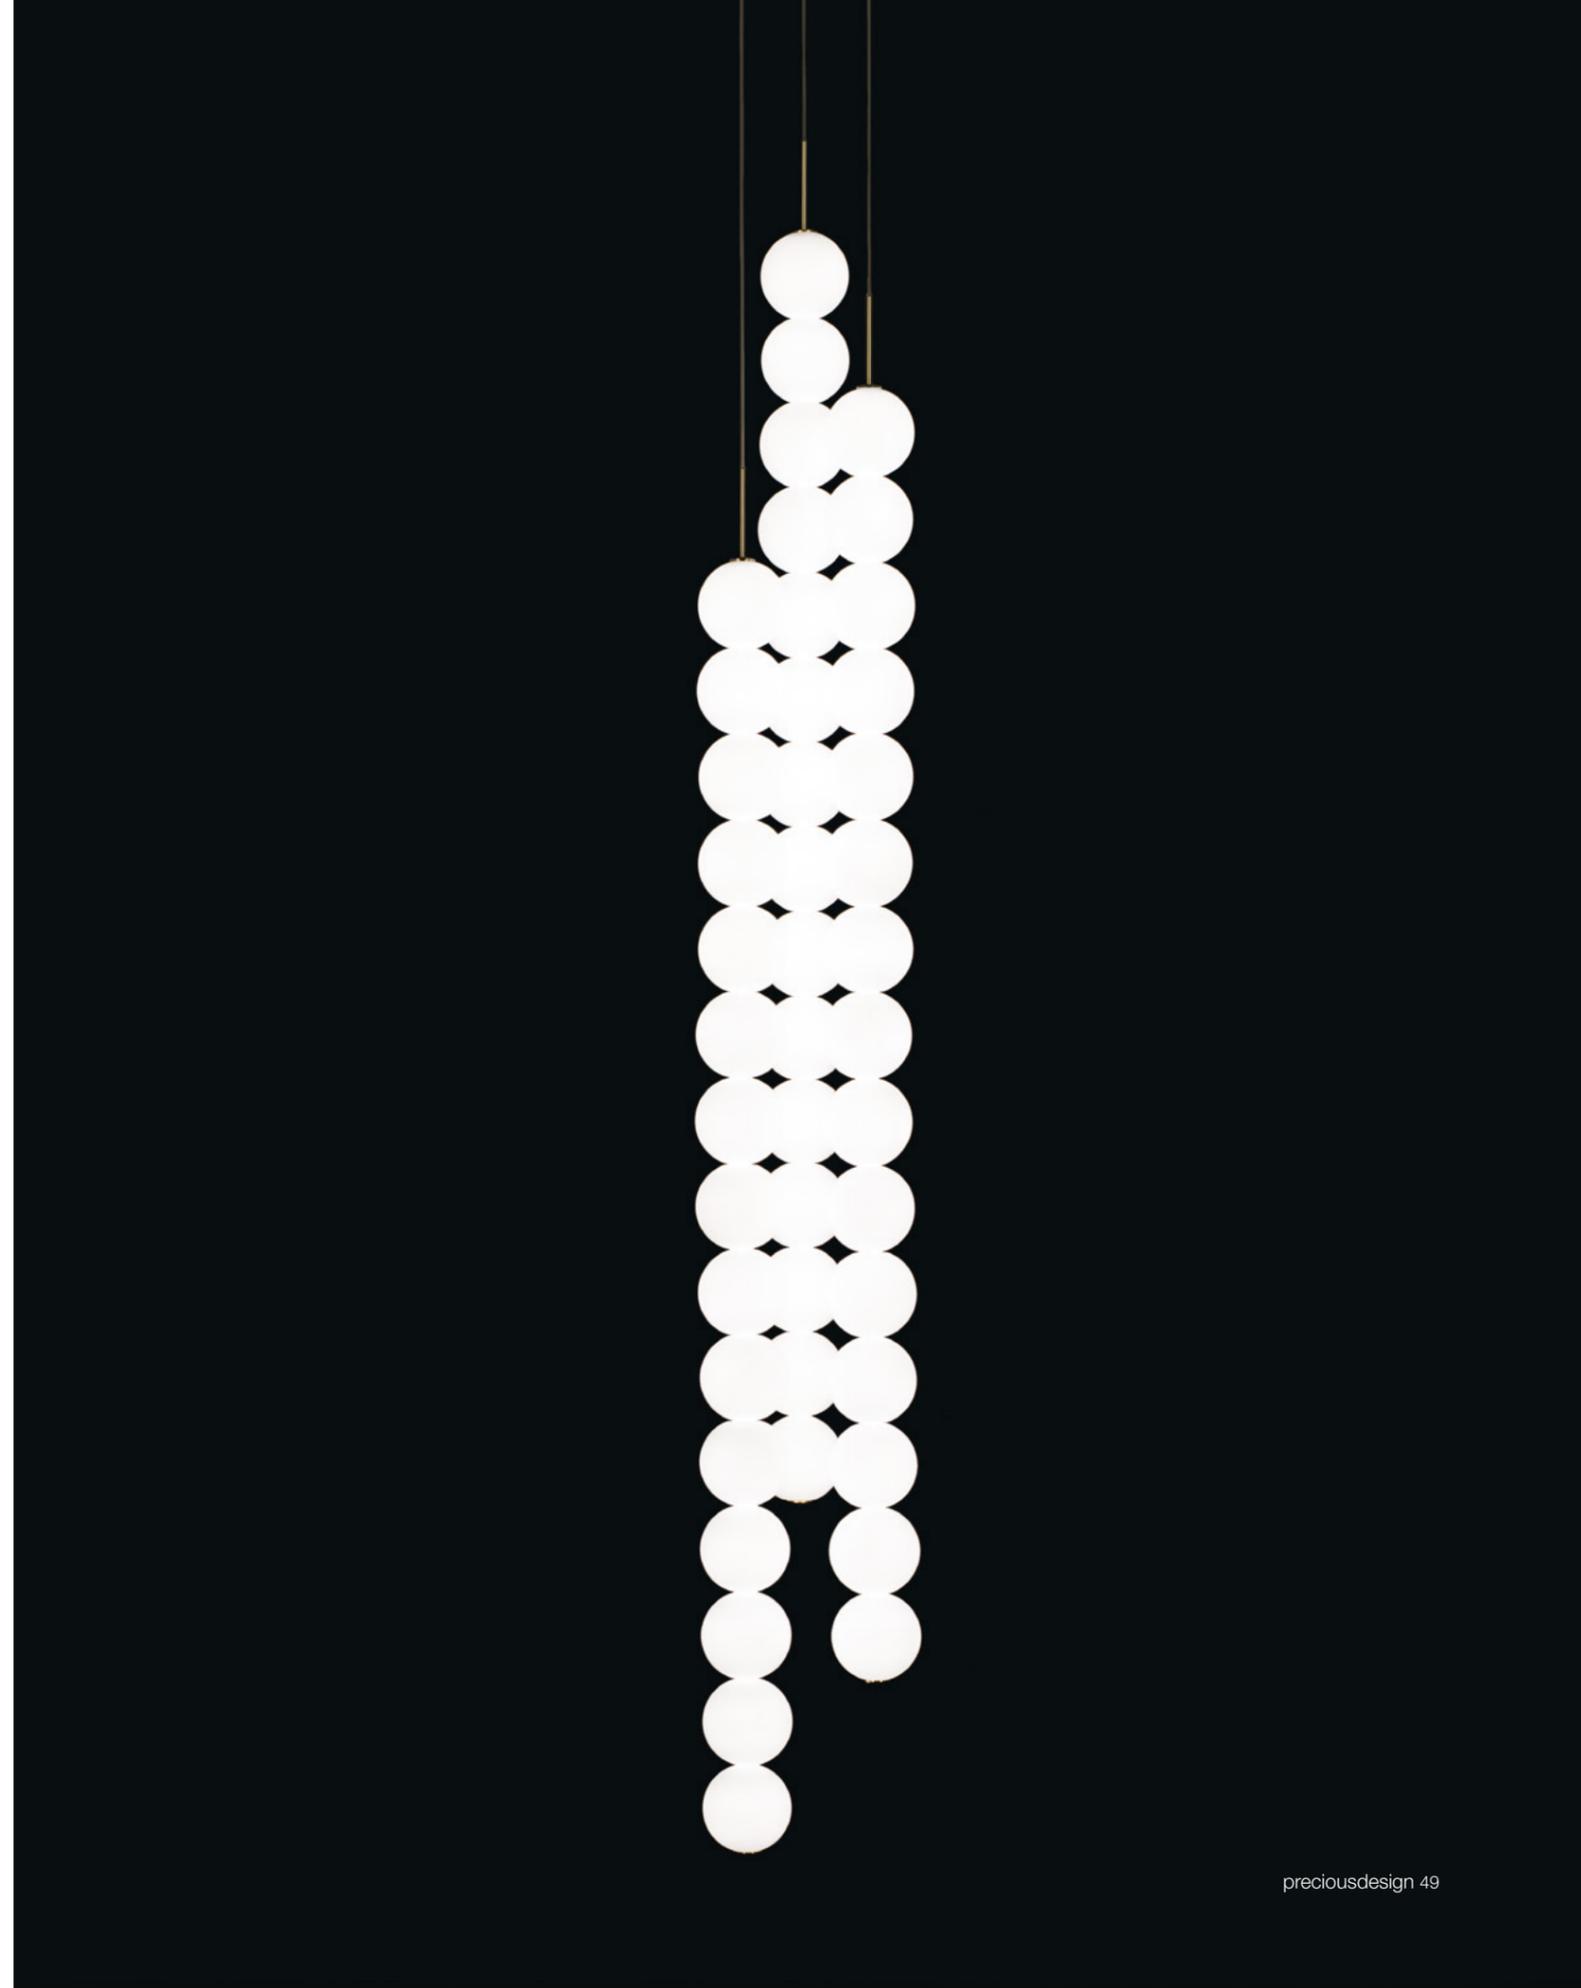

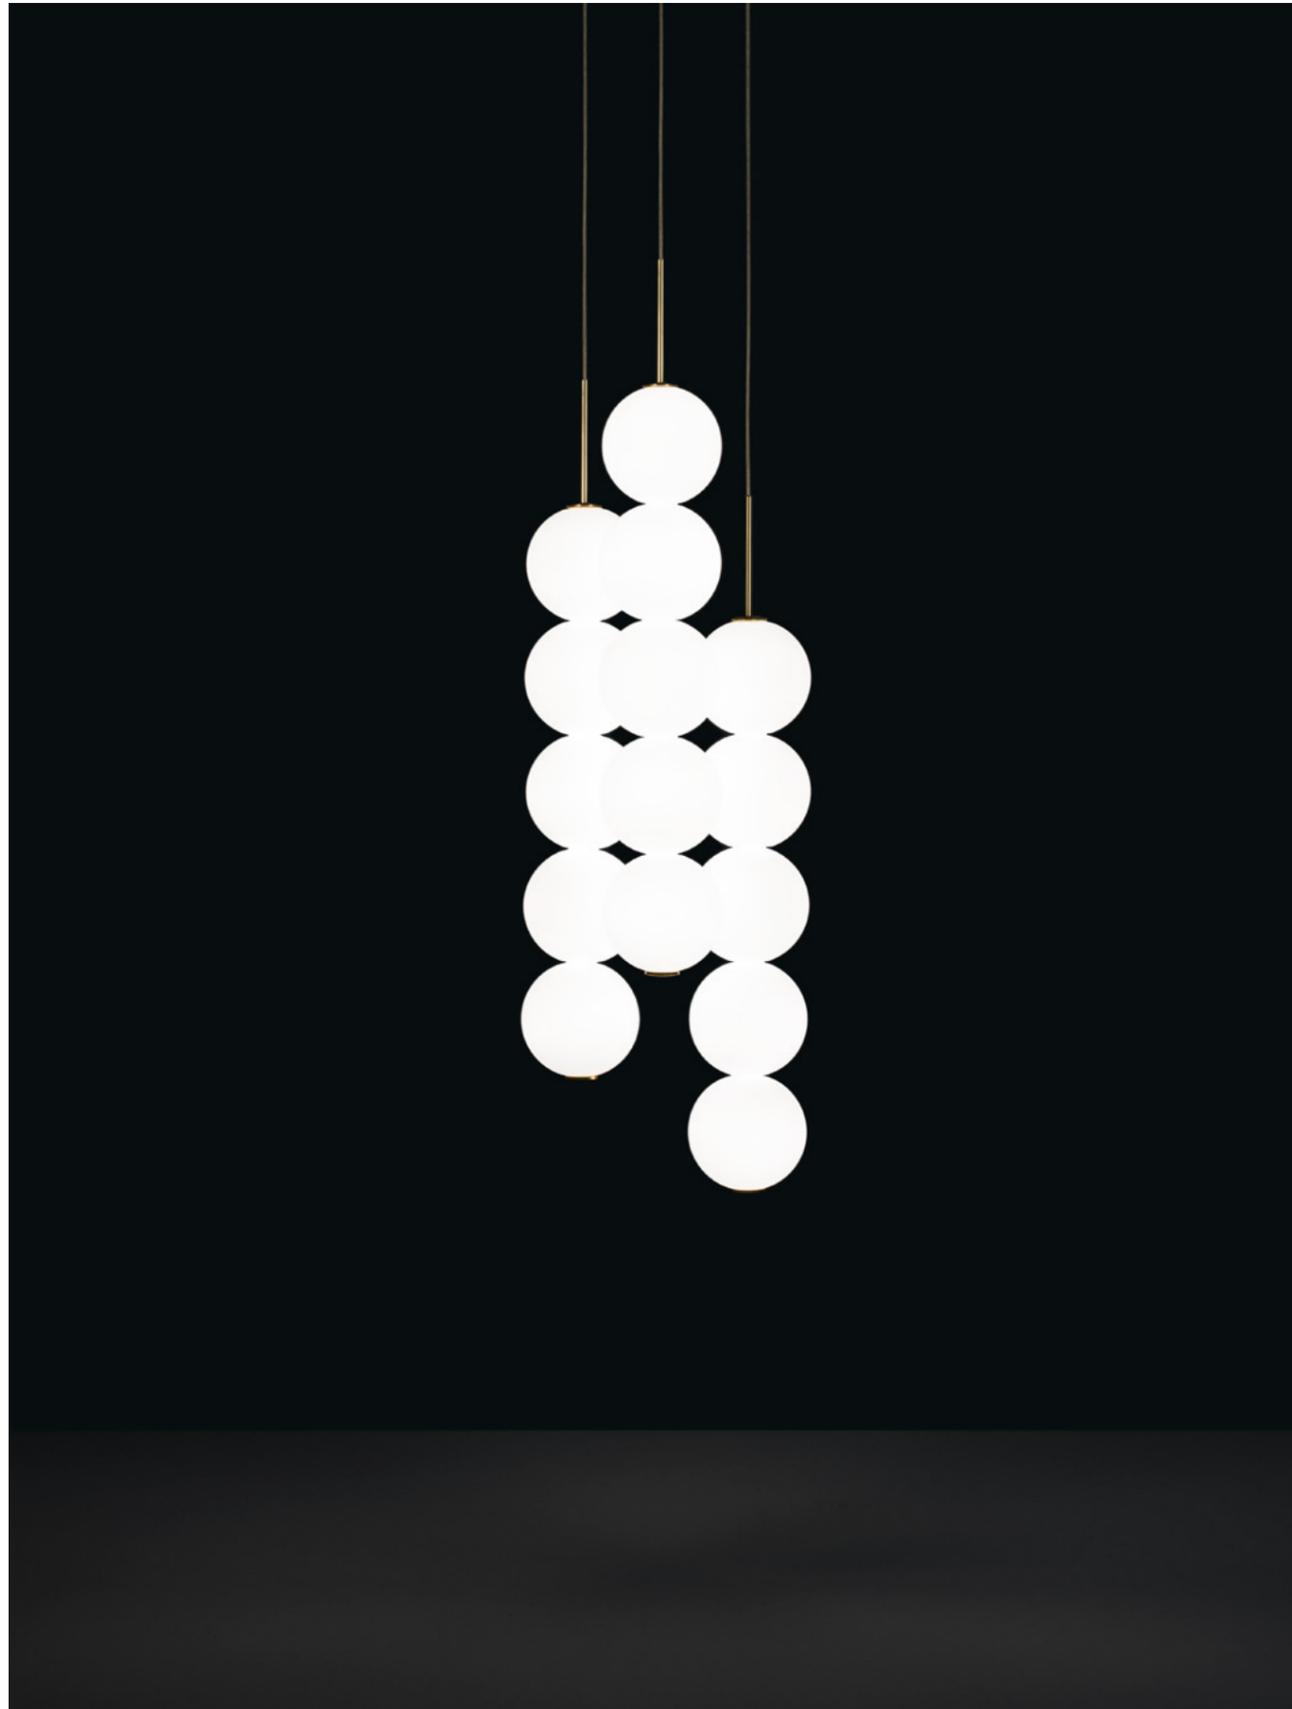

Used for centuries as the tool to both teach and communicate mathematics, the abacus was found in one form or another across the ancient world. At Terzani, we saw the beauty in the abacus' mathematical purity and clean, functional design. In the hands of Terzani's craftsmen, we've turned this inspiration into a new collection of modular pendant lamps whose flexibility allows for complex and beautiful configurations. Each module, or strand, of Abacus contains a custom set of round, hand-blown opal glass which emit a soft and uniform light. And, as the original abacus was used to calculate everything from simple addition to complex formulas, we've retained the same scalability. Due to its customization, our Abacus light is just as suitable in a home as a commercial space, and its almost infinite configurations makes sure you always come up with the right solution. Design Draw.

Oscar, *a tribute.*

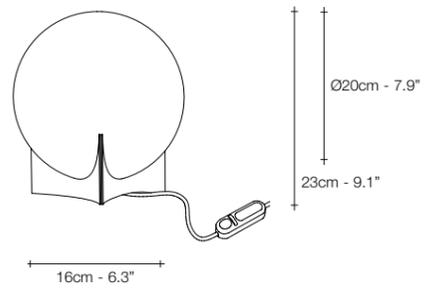

The great Brazilian architect Oscar Niemeyer once said about his work: "It's not the right angle that attracts me, nor the straight line. Stiff, inflexible, created by men. What really attracts me is the free, sensual curve. The curve I see on the sinuous course of our rivers, on the clouds in the sky, on your favorite woman's body. The universe is entirely made of curves". Inspired to pay tribute to one of the founders of modern architecture, designer Dodo Arslan has created a series of lights named "Oscar", which pay homage through their adoption of Niemeyer's signature sensuous curves. Oscar table lamp consists of a glass orb delicately held by curved brass. Available in nickel, brass, black, white, gold plated and rose gold finish. Design Dodo Arslan.

Moiré, movement *with pattern.*

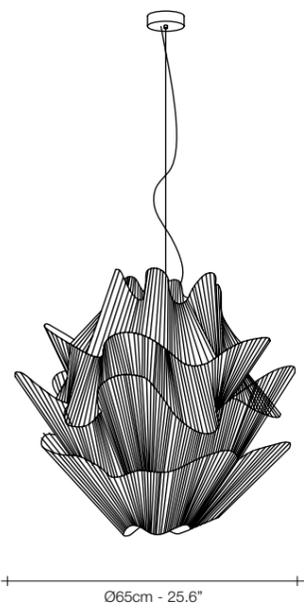

A French term derived from silk with a rippled or “watered” appearance, moiré is an optical effect that results in the illusion of waves or the movement of water. This effect is achieved by having an opaque, ruled pattern overlaid over another. Designer Christian Lava’s studies of this effect have led to his latest design aptly titled, Moiré. Using overlapping grids of metal, this LED pendant light dynamically changes shape following the viewer’s gaze, practically coming to life with a vibrating energy. Moiré is a mesmerizing addition to any room. Available in gold plated and nickel finish. Design Christian Lava.

Pug, multum *in parvo.*

Pug is a dog described as “much in little”, referring to the greatness of his personalities despite his diminutive size. Inspired by the Pug’s charm, designer Jean-François Crochet created the Pug pendant light whose protruding spherical lights are reminiscent of a pug’s face. As with the breed, the Pug pendant packs significant charm and beauty into a small package. Illuminated by LED light, these glass pendants are framed by two brass bands. With Pug, it’s easy to bring a new best friend (or pack of friends) into a home. Available in clear/raw brass and satin white/polished brass. Design Jean-François Crochet.

Gaia, earth *mother.*

In Greek mythology, Gaia is the personification of the Earth and the mother of all life. Looking to capture the mythical and natural beauty of this Earth goddess, designer Jean-François Crochet has created the Gaia pendant light. Consisting of geometric frames of brass or raw metal reminiscent of the mountains Gaia created, the pendant uses led light to push light through the “cracks” formed. The resulting light creates a magical feeling, as if the lights peaking through were alive themselves. Available to custom configurations, Gaia adds a vibrancy and sacred light to any space. Design
