Elements

Channeling jet setting socialites from the golden age of Hollywood as its muse, the Sanctuary collection includes an eclectic and glamorous mix of bedroom, dining room, occasional and home office pieces. Grouped into three unique personas, each embody the influences of the iconic starlets whom left impressions of glamour, charm and class on American pop culture.

From bold and dramatic, to soft and romantic, to a statement-making eclectic lifestyle, the three personas – Collette, Anastasie and Diamant – effortlessly bring to life a well-traveled socialite who has curated a collection of home furnishings in her metropolitan home that tell the story of her travels across the globe.

Collette, a bold and dramatic look, is characterized by its dark black painted finish that serves as the perfect backdrop for intense pops of champagne, silver and gold, along with eglomise mirror details and dramatic floral carvings.

Anastasie offers a softer, romantic look with its creamy white finish that is accented with champagne and silver tipping. Several historical reproduction styled pieces in a two-tone finish are intermingled throughout, giving the group a bit of a traditional European cottage style. Additional design details include tabletops with intricate quatrefoil veneer patterns crafted with oak and a mix of unique walnut inlay, carved chairs with acanthus leaf and scrollwork detailing, and champagne tipped eglomise.

Offering a more metropolitan style, Diamant has an eclectic attitude. Anchored by a silver finish with rich undertones of gold and champagne, the group is complemented by a bold, black accent finish, mirrored details, champagne metal finishes and a fresh white eglomise process, accented with silver tipping. Several pieces also include reverse hand painted glass that resemble the look of marble.

Fabric

Upholstered items in Sanctuary feature "Performance Fabrics" that offer superior stain and fade resistance, long-lasting durability and can be easily cleaned.

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Bedroom

There is something irresistible about a canopy bed that often makes it the most desired place in the house. After all, who doesn't enjoy the indulgence of sleeping like a king or queen at the end of a long day? Its gracefully curved metal canopy in a jewel-tone finish adds a bit of juxtaposition to the linear pattern on the headboard and footboard that is created with fretwork detailing atop eglomise painted glass. Silver leaf detailing and floral motif accents in a jewel tone add the finishing touches to the tranquil look. The panel bed is also available without the canopy.
