Elements

With roots in traditional design, **BEAUMONT** offers an exquisite and eclectic remix of old and new, combining the look of seasoned antiques and refurbished treasures with the conveniences of newly constructed furniture. Rustic accent finishes are combined with a mix of authentic weathered details including natural stone elements, metal accents inspired by antique galvanized watering cans and aged leathers inspired by antique pommel horses.

Fashioned with a combination of elm and oak veneers, the collection is anchored in Shale, a soft grey with natural wood undertones. Shale is complemented by a mix of six rustic accent finishes, including: a light oak Sheaf finish, Root Beer, a dark-tone on elm, French Press, reminiscent of freshly ground coffee with hints of brown and black, an antique white Cumulus finish, Skylark blue with natural wood undertones and Strata, a layered and ultra-weathered multicolor finish that gives the look of an authentic antique that has been painted and repainted through the years combining shades of Shale, Skylark and Sheaf.

American antique-inspired design details that give the group the look of a well curated assortment of antiques collected over time include exposed upholstery tacks, which provide a trendy, upcycled look of a vintage piece that's been re-covered with a hip new fabric, architectural salvaged balustrade table base details, elegantly shaped headboards and storage pieces, and a variety of dining chair styles and benches, each of which pair well together, for an eclectic, "assemblage" look.

Quality

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Dining Room

The Rectangular Trestle Table extends horizontally from 84" to 106" with one leaf. The unique table also adjusts vertically from a standard 30" dining height to a 36" counter height to truly elevate the dining experience.
